# THANK YOU FOR YOUR ATTENTION

*Tyranny, like hell, is not easily conquered; yet we have this consolation with us, that the more difficult the conflict, the more glorious the triumph. What we obtain easily, we esteem lightly; it is only the preciousness that gives value to everything. Heaven knows how to put a proper price on its goods; and it would be strange indeed if so heavenly an article as liberty were not highly valued.*

Thomas Paine

## HOPE & JUSTICE FOUNDATION.

The Congress, organized by the Hope & Justice Foundation, will be a historic milestone for the State of Florida and the American nation. With the proposed bill to include psychological and property violence in Florida's domestic violence law, the legal system will be on a par with the most advanced legislation in the world, such as Brazil's "Maria da Penha" law. The laws of a democratic and modern country must keep pace with advances in the humanities and social sciences in order to effectively serve justice by granting the rights expected.

THE FIRST INTERNATIONAL CONGRESS ON PREVENTING AND COMBATING HUMAN TRAFFICKING, DOMESTIC VIOLENCE AND his event will bring together some of the most important and respected names in the legal, medical, social and political sciences for an extraordinary scientific debate on the damaging effects of domestic psychological and property violence on the mental, physical and economic health of the victim and the negative impact on public health, the economy, security and education.

### Context and importance:

Psychological and property violence in the domestic sphere, which is often invisible, urgently needs legal attention. This conference aims to debate the issue and propose an advance in the current domestic violence legislation in the state of Florida, having seen in our fieldwork the difficulties faced by victims seeking protection from this type of violence.

### Focus on Legal Aid:

The legislative suggestion aims to provide legal protection, giving victims the security they need to find legal support when they are victimized by this type of violence. Orlando will be the setting where a new era of legal protection will be born. This Congress is not just about creating laws; it's about transforming lives by ensuring that all women have legal protection against psychological violence. We count on everyone's participation to shape this safer and fairer future together.

Anna Alves-Lazaro
